

Pinellas Economic
Development Council

Dear Jay:

On behalf of the Pinellas Economic Development Council, I would like to express our appreciation for your work in the creation of the Bay Area Transportation Challenge video. As you are quite aware, this video was a key ingredient behind the success of the November 1 dinner.

Of special note is the schedule you maintained throughout the production under very demanding time constraints. I'm not sure many firms in the video business could have come through with the exceptional video as you did, "on target" and "on time". For some time to come, the question of "How Do You Get There From Here" will be used to illustrate the critical transportation funding issues facing the Tampa Bay Area.

Again, thank you for making the Bay Area Transportation Challenge a real success. We at PEDC hope to work with you and your firm again on future projects of importance to the citizens of Tampa Bay.

Sincerely,

Edward L. Schons
President
